

Digital Citizenship Robert Ogilvie Elementary School

All students & parents are required to sign off on the technology user agreement at the beginning of every school year in order to be able to utilize a district email account and utilize district technology. As part of our focus on social responsibility, each student is expected to be a responsible digital citizen. Our school wide behaviour matrix includes our expectations for technology and is included on posters around the school and in student agendas. As well, our school has ordered books for teacher use around digital citizenship.

At Robert Ogilvie School being a responsible digital citizen means:

- Using my personal device for educational purposes only
- Using my device with the permission of an adult at the school
- Ensuring my device is safe at all times
- Using my device at appropriate times only
- Keeping my personal log in information safe
- Respecting myself and others when online
- Not cyber-bullying
- Ensuring my digital footprint is safe and responsible

All students in Grade 6 will be given an district administered iPad this school year for educational purposes. There will also be technology usage on school administered devices in other classrooms. Use of all devices is a privilege, and their use is at the discretion of the teacher and school administration. More information on expectations governing the use of iPads will be distributed to parents in September.
